BOB MARTIN  
*Acting Commissioner*

Dear Commercial / Semi-Wild Preserve Permittees:

The New Jersey Division of Fish and Wildlife's Bureau of Wildlife Management has reviewed and analyzed harvest statistics for various upland species, including bobwhite quail and pheasant. A significant portion of the annual game bird harvest comes from the commercial/semi-wild preserves.

Therefore, in addition to the normal annual report, and to further this research effort, the Division is requesting all Commercial Preserve and Semi-Wild permit holders complete the following form at the end of each season. This information will be used to better estimate the harvest of native versus stocked game birds in the state. We strongly feel this is an important issue and the results will enable the Division to better serve the citizens of our state.

Please take the time now to review the requested information so that you are aware of the information that will be requested. This may require that you change your current internal record keeping procedures. Please note, failure to submit the harvest report with the annual report will delay the authorization and/or issuance of Commercial and Semi-Wild permits for the upcoming season.

Thank you in advance for assisting us with the survey.

If you have any further questions, please feel free to contact me at (609) 292-2965.

Respectfully,

Riddhi Patel  
Customer Service Rep. 4  
Permit Section

Andrew Burnett
